Company

Introduction

Shanghai Venttech Refrigeration Equipment Co.,Ltd is a professional manufacturer of heat exchangers and refrigeration units. The headquarter is located in Yangpu District, Shanghai, China. Production base is located in Zhuanghang town, Fengxian District, Shanghai, China.

Our products include condensers, evaporators and fin and tube heat exchangers. Our products are widely used in aviation, trains, ships, cars, computer room, cold storage desiccant, drying, ventilation and other industrial and commercial air conditioning equipment.

After many years of development, our products have gone out to the world. Mainly are exported to Asia, the United States, Europe, Africa and other countries and regions.

The company has advanced production lines and testing equipment, in accordance with the national and international standards to arrange production, improve quality of the products, production and comprehensive management, customer service's tracking system and establish a modern enterprise management system. To provide customers with reliable trust and complete sets of products. Seize the opportunity, pursue excellence and push the high-quality products to the world!

Production Introduction

Copper Tube Copper/Aluminum Fin Heat Exchanger

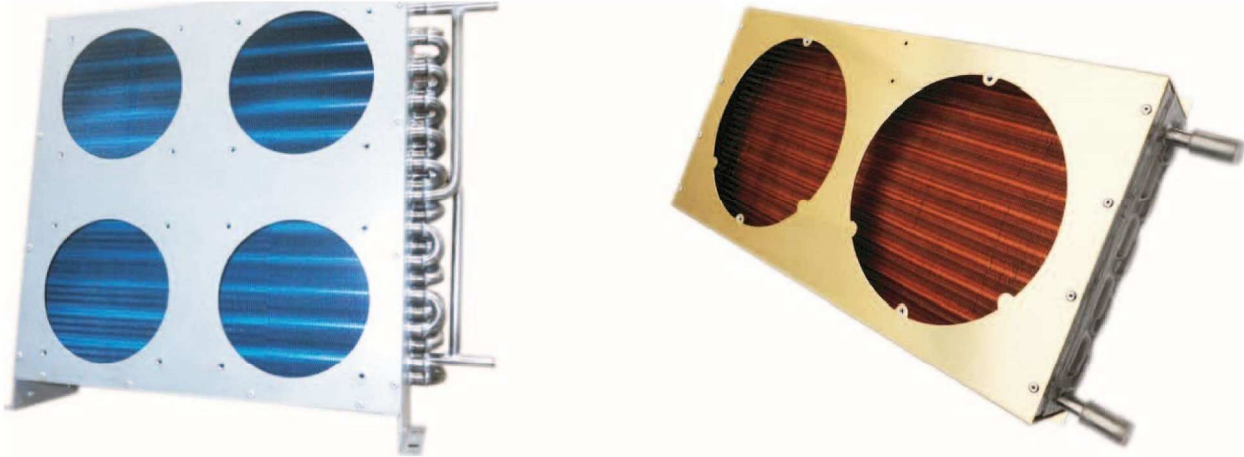

Application: Can be used in most heat exchange occasions, especially widely used in the central air conditionings, air duct systems, refrigeration equipments and refrigeration equipments. According to different applications, it can be used as evaporators, condensers, heat exchangers, cooling coils, heating coil, etc..

Spec.:

No.	Tube O.D. (mm)	Fin Pattern		Fin Type	Fin space (mm)
		Row Space (mm)	Hole Space (mm)		
1	5	11.6	19.5	Flat, Corrugated/ Sine wave, Window	1.2~1.6
2	7	12.7	21	Corrugated/ Sine wave, Window	1.2~3.0
3	7	12.7	19.05	Corrugated/ Sine wave, Window	1.3~3.0
4	7.94	15.88	25.4	Flat, Corrugated/ Sine wave, Window	1.8~3.0
5	7.94	19.05	22	Flat, Corrugated/ Sine wave, Window	1.4~3.0
6	7.94	21.65	25	Flat, Corrugated/ Sine wave, Window	1.4~3.0
7	9.52	12.7	25.4	Flat, Corrugated/ Sine wave, Window	1.6~2.5
8	9.52	16.5	19.05	Flat, Corrugated/ Sine wave, Window	1.6~3.2
9	9.52	15.88	25.4	Flat, Corrugated/ Sine wave, Window	1.6~3.2
10	9.52	21.65	25	Flat, Corrugated/ Sine wave, Window	1.6~6.0
11	9.52	22	25.4	Flat, Corrugated/ Sine wave, Window	1.6~6.0
12	9.52	25	25	Corrugated/ Sine wave	2.5~4.2
13	9.52	30	30	Sesamoid fin	4.0~6.0
14	12.0	35	35	Corrugated/ Sine wave	4.0~6.0
15	12.75	27.5	31.75	Flat, Corrugated/ Sine wave, Window	1.5~3.5
16	14.5	52	45	Corrugated/ Sine wave	4.0~7.0
17	15.2	75	25	Corrugated/ Sine wave	8.0~10
18	15.2	60	30	Corrugated/ Sine wave	8.0~10
19	15	50	50	Corrugated/ Sine wave	4.5~9
20	15.88	33	38.1	Corrugated/ Sine wave Window	1.5~7.5
21	19	58	58	Flat Corrugated/ Sine wave	10~20
22	25	75	65	Flat Corrugated/ Sine wave	10~20

Tube Copper/Aluminum Fin Heat Exchanger

Application: Can be used in food industry, medical equipments, cosmetic instruments, chemical equipments, marine equipments, energy (smoke) recovery, waste heat recovery. Also, can be used in corrosive liquid heat exchange occasions.

Spec.

No.	Tube O.D. (mm)	Fin Pattern		Fin Type	Fin space (mm)
		Row Space (mm)	Hole Space (mm)		
1	9.52	16.5	19.05	Flat, Corrugated/ Sine wave, Window	1.6~3.2
2	9.52	21.65	25	Flat, Corrugated/ Sine wave, Window	1.6~6.0
3	9.52	22	25.4	Flat, Corrugated/ Sine wave, Window	1.6~6.0
4	12.75	27.5	31.75	Flat, Corrugated/ Sine wave, Window	1.5~3.5
5	15.88	33	38.1	Flat, Corrugated/ Sine wave, Window	1.5~7.5

Tube Fin Heat Exchanger

Application:

Can be used in food factories, laboratory, chemical factories, poultry breeding and other special areas

Spec.:

No.	Tube O.D. (mm)	Fin Pattern		Fin Type	Fin space (mm)
		Row Space (mm)	Hole Space (mm)		
1	15.88	33	38.1	Flat, Corrugated/ Sine wave, Window	1.5~7.5

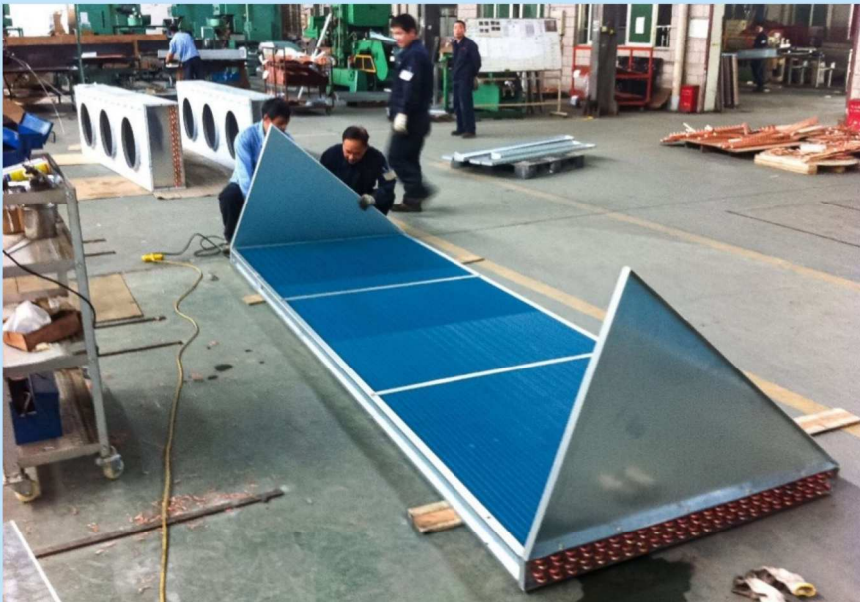

Radiator

Application: Mainly for heating, air conditioning, cooling, desiccant, drying. Also widely used in dairy products, food, starch, chemical, paper, machinery, medicine, air conditioning, printing and dyeing industry

Spec:

Fin Tube Type	Tube Material	Tube Outside Diameter	Fin Material
Spiral Type	Seamless steel, Stainless steel, Copper	16~42	Steel, Copper
Extruded type	Seamless steel, Stainless steel, Copper	16~42	Aluminum
