

Commercial & Industrial ESS Solutions

RELEX C&I energy storage solutions adopt industry-leading modular system configuration, flexibly suit various C&I scenarios, and supports multi-mode operation. The solutions can facilitate peak shaving, time of use to relieve peak load, enhance grid reliability and improve power quality, bringing "higher profit, safe and reliable, and intelligent O&M" to customers.

Tier 1 Supply Chain Resources

- With strong supply chain and leading R&D strength, BROGEN has established in-depth cooperation with over 100 high-quality suppliers
- Perfect quality system and strict control on quality

Advanced Technology

- Modular structure enables easy maintenance and delivers various products of voltage up to 2000V
- Three-level BMS design, making products stable and reliable
- Digital intelligent factory improves cost-efficiency

Experienced Project-Delivery Management

- BROGEN has multiple types of clients and lots of overseas project experience
- Professional pre-sales and after-sales teams and field-support capability

Battery Rack

Whatever Power You Need
We Will Deliver

Specifications

Battery Type	LFP
Configuration	1P16S
Rated Voltage	51.2V
Rated Capacity	100Ah
Rated Energy	5.12kWh
Protection Rating	IP20
Weight	52kg
Dimensions(W*D*H)	440*420*200mm
Cycle Life	≥6000 cycles

Specifications

Battery Type	LFP
Configuration	2P16S
Rated Voltage	51.2V
Rated Capacity	200Ah
Rated Energy	10.24kWh
Protection Rating	IP20
Weight	120kg
Dimensions(W*D*H)	701*548*194mm
Cycle Life	≥6000 cycles
