商检食品包装备案
Obtained the Import & Export
License and customs, commodity
inspection food packaging record
in the same year.

2008

搬迁至第二代工厂
Move to new plant at Yanhu Road
投产3层PE共挤膜生产线
Put into production for 3-layer
PE co-extrusion film.

2012

投资建设“GMP”药包生产车间
Invested in the construction
of "GMP" workshop
获得药包材生产许可证
Obtained the drug packaging
material production licenses

2015

公司股票登陆“新三板”交易

可回收

自产MDOPE,单一聚乙烯可回收包装具有原材料供应优势

Recyclable

Self-produced MDOPE, has obvious supply advantages of raw material for Mono-PE recyclable material

双易认证
Double E Certified
(Easy-to-recycle, Easy-to-regenerate)

高阻隔

配套高阻隔涂布生产线
从原材料端解决产品包装阻隔问题

High Barrier

Equipped with high barrier coating lines,
Guarantee packaging high barrier from raw material.

灵活定制

数字印刷和高速凹版印刷
结合可灵活按需定制包装

Flexible customization

Combine digital printing with rotogravure printing,
make it flexible to customize the packaging demanded

PRODUCT-PAPER PACKAGING

包装可持续发展趋势下，作为环境友好的纸包装受到更多消费者和品牌商的青睐。诚德结合自身软包装优势，高新生产设备和纸包装生产技术，为客户打造一站式包装解决方案。

Under the trend of sustainable development, as an eco-friendly packaging- paper packaging, it is favored by more consumers and brands. Chengde combines its advantages of flexible packaging , high-tech production equipment and paper packaging production technology, is providing one-stop packaging solutions.

可持续

纸包装 可回收 可降解 绿色 环保

Sustainable

Paper packaging is recyclable , biodegradable, green and eco-friendly;

FOCUS ON PACKAGING

高阻隔-防油-防水

结合PLA PVA 等环保高阻隔材料,纸包装可实现高阻隔,防油, 防水功能

High barrier and oil-proof

with PLA, PVA and other biodegradable high-barrier materials, it can be degradable, oil-proof and high barrier at the same time
