- Sliding rollder system
- Hanging sliding roller accessory kit

### Perfect A21 High-track Single-door Set

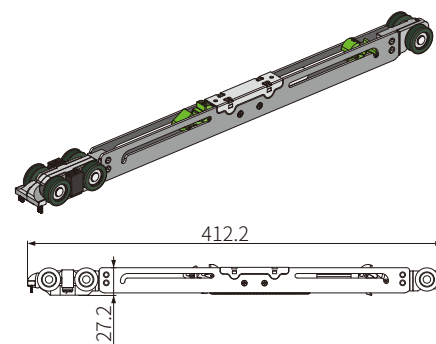

Inner Packing Specification	Outer Packing Specification	SAP Code
1 set/box	20 boxes/case	CA420003-002

Single door width	≥600mm
Single door thickness	40 or 45mm
Suitable for Glass Thickness	8~11mm
Single door load bearing	≤80kg

#### Order instructions

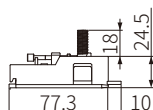

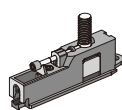

- Please order the profiles and tracks separately
- 2-Overlap sliding doors: Please order 2 sets of Perfect A21 high track single door set

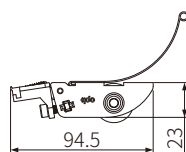

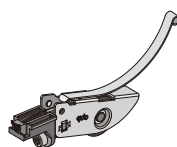

Product name	Quantity	SAP Code
Synchronized door rolling out stopper	x2	CA991363-001

Product name	Quantity	SAP Code
Single hanging sliding roller	x1	CA991383-001

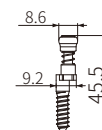

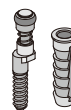

Product name	Quantity	SAP Code
Synchronized damping hanging sliding roller	x1	CA991384-001

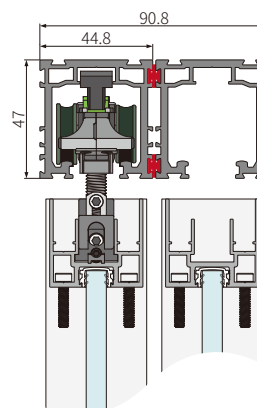

Product name	Quantity	SAP Code
Perfect A01-Hanging Box	x2	CA991441-001

Product name	Quantity	SAP Code
Anti-swing wheel	x2	CA991387-001

Product name	Quantity	SAP Code
the floor guide wheel	x1	CA991393-001

- Hanging sliding track profile

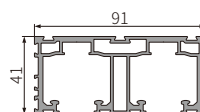

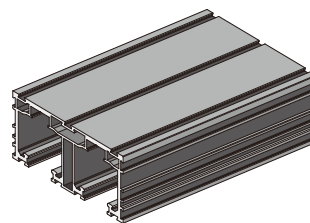

### Technical Overview

- Meter Weight: 1.35kg/m
- Material: Aluminum Alloy
- Surface Treatment: oxidized flat light black
- Length: 6000mm

### Usage Instructions

- Used with the Hanging sliding roller system
- Length can be customized according to demand
- Pre-drilling and Screw fixation

### Technical Overview

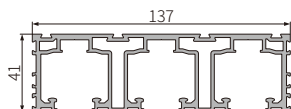

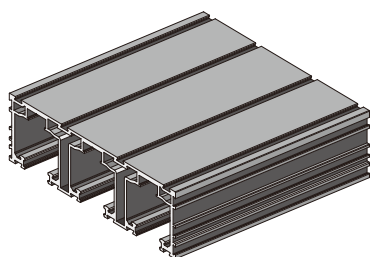

- Meter Weight: 2.14kg/m
- Material: Aluminum Alloy
- Surface Treatment: oxidized flat light black
- Length: 6000mm

### Usage Instructions

- Apply to 2 Overlap sliding doors
- can be combined with the Hanging sliding track into 3 Linkage door or 2 Linkage doors with one free door
- Length can be customized according to demand
- Pre-drilling and Screw fixation

Product name	Model Number
Hanging sliding track	OPK-A101

Product name	Model Number
40Hanging sliding double track	OPK-A114-40

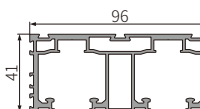

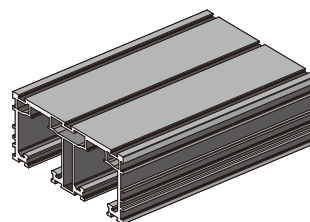

### Technical Overview

- Material: Aluminum Alloy
- Surface Treatment: oxidized flat light black
- Length: 6000mm

### Usage Instructions

- Used with the Hanging sliding roller system
- Apply to 3 Linkage door or 2 Linkage doors with one free door

### Technical Overview

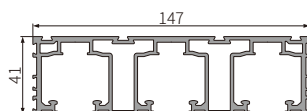

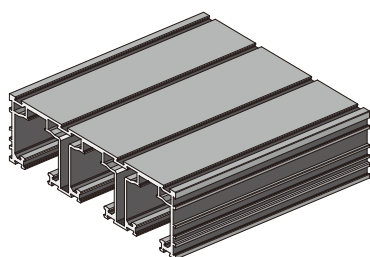

- Material: Aluminum Alloy
- Surface Treatment: oxidized flat light black
- Length: 6000mm

### Usage Instructions

- Apply to 2 Overlap sliding doors
- can be combined with the Hanging sliding track into 3 Linkage door or 2 Linkage doors with one free door
- Length can be customized according to demand
- Pre-drilling and Screw fixation

Product name	Model Number
40 Hanging Sliding Roller Track for 3 Sliding Track	OPK-A116-40

Product name	Model Number
45 Hanging Sliding Roller Track for Double Sliding Track	OPK-A118-45

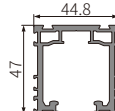

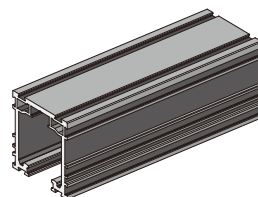

### Technical Overview

- Material: Aluminum Alloy
- Surface Treatment: oxidized flat light black
- Length: 6000mm

### Usage Instructions

- Used with the Hanging sliding roller system
- Apply to 3 Linkage door or 2 Linkage doors with one free door

### Technical Overview

- Meter Weight: 1.21kg/m
- Material: Aluminum Alloy
- Surface Treatment: oxidized flat light black
- Length: 6000mm

### Usage Instructions

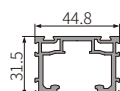

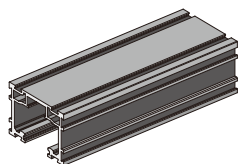

- apply to Synchronized Linkage Door
- Length can be customized according to demand
- Pre-drilling and Screw fixation

Product name	Model Number
45 Hanging Sliding Roller Track for 3 Sliding Track	OPK-A120-45

Product name	Model Number
Hanging sliding high track(apply to Synchronized Linkage Door)	OPK-A102

## System analysis

- Track system
- Hanging sliding track profile

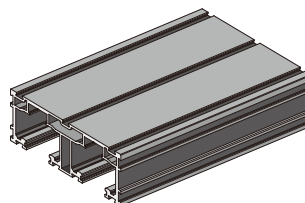

### Technical Overview

- Meter Weight: 0.99kg/m
- Material: Aluminum Alloy
- Surface Treatment: oxidized flat light black
- Length: 6000mm

### Usage Instructions

- Pair with the Perfect system-30 low track opposite damping hanging sliding track set
- Length can be customized according to demand
- Pre-drilling and Screw fixation

### Technical Overview

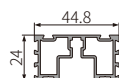

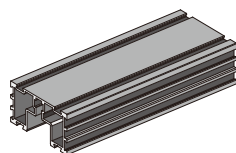

- Meter Weight: 1.77kg/m
- Material: Aluminum Alloy
- Surface Treatment: oxidized flat light black
- Length: 6000mm

### Usage Instructions

- Pair with the Perfect system-30 low track opposite damping hanging sliding track set
- Length can be customized according to demand
- Pre-drilling and Screw fixation

Product name	Model Number
Hanging sliding low track	OPK-A123

Product name	Model Number
40 Hanging sliding low double track	OPK-A124-40

### Technical Overview

- Meter Weight: 0.68kg/m
- Material: Aluminum Alloy
- Surface Treatment: oxidized flat light black
- Length: 6000mm

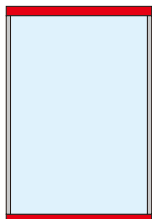

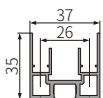

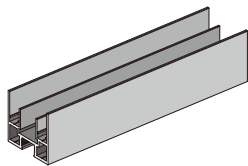

Product name	Model Number
The Bottom load-bearing is matched with the Top sliding track	OPK-A112

## System analysis

- Door frame system
- 4016 door frame

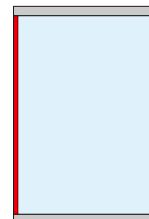

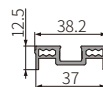

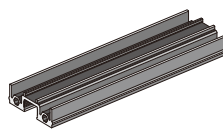

### Technical Overview

- Meter Weight: 0.76kg/m
- Material: Aluminum Alloy
- Surface Treatment: Enamelled copper/Cypress grey/Titanium void grey
- Length: 6000mm

### Technical Overview

- Meter Weight: 0.45kg/m
- Material: Aluminum Alloy
- Surface Treatment: Enamelled copper/Cypress grey/Titanium void grey
- Length: 6000mm

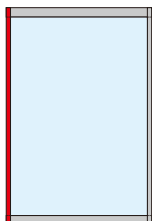

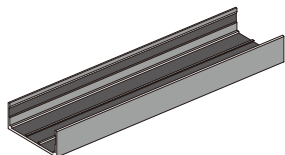

Product name	Model Number
40 door frame top and bottom frame	OPK-A201-40

Product name	Model Number
40 door frame mullion(inside)	OPK-A202-40

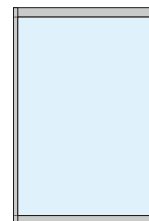

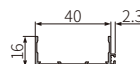

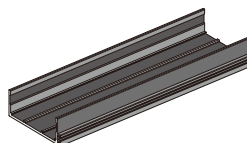

### Technical Overview

- Meter Weight: 0.27kg/m
- Material: Aluminum Alloy
- Surface Treatment: Enamelled copper/Cypress grey/Titanium void grey
- Length: 6000mm

### Technical Overview

- Meter Weight: 0.29kg/m
- Material: Aluminum Alloy
- Surface Treatment: Enamelled copper/Cypress grey/Titanium void grey
- Length: 6000mm

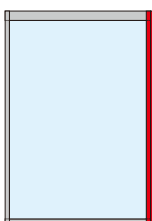

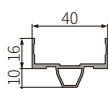

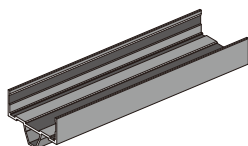

Product name	Model Number
40 door frame mullion(outside)	OPK-A203-40

Product name	Model Number
40 door frame mullion(External clasp)	OPK-A204-40

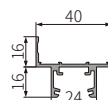

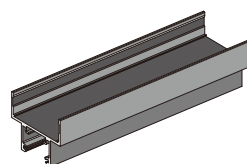

### Technical Overview

- Meter Weight: 0.35kg/m
- Material: Aluminum Alloy
- Surface Treatment: Enamelled copper/Cypress grey/Titanium void grey
- Length: 6000mm

### Technical Overview

- Meter Weight: 0.48kg/m
- Material: Aluminum Alloy
- Surface Treatment: Enamelled copper/Cypress grey/Titanium void grey
- Length: 6000mm

Product name	Model Number
40 synchronized door cover A	OPK-A207-40

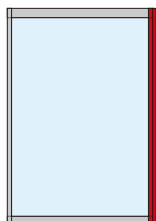

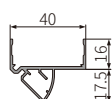

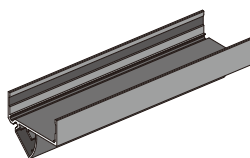

Product name	Model Number
40 synchronized door cover B	OPK-A208-40

## System analysis

- Door frame system
- 4016 door frame

### Technical Overview

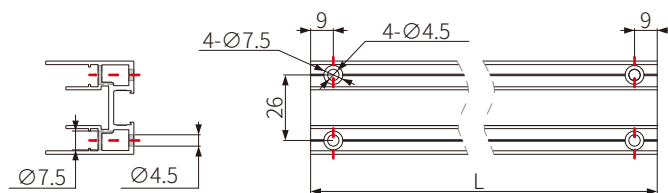

- Meter Weight: 0.41kg/m
- Material: Aluminum Alloy
- Surface Treatment: Enamelled copper/Cypress grey/Titanium void grey
- Length: 6000mm

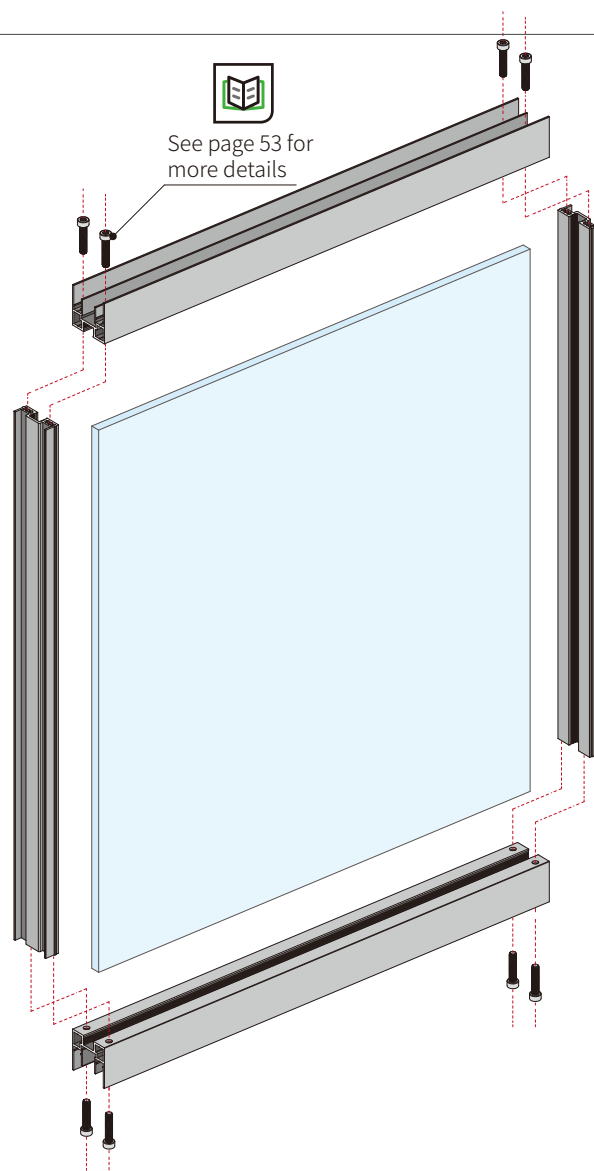

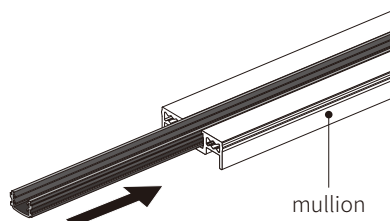

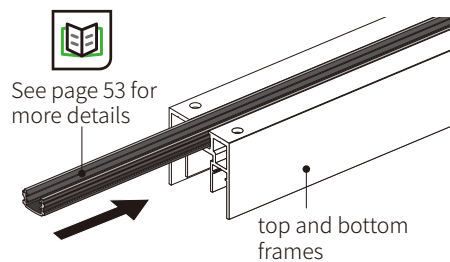

Product name	Model Number
40 right-angle synchronized door cover (arc surface)	OPK-A206-40

Use technology to perfect life, And to make industry-benign sustainable development

## System analysis

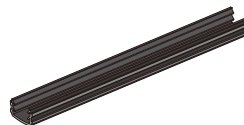

- Auxiliary accessories system
- Door frame auxiliary accessories

### Usage Instruction

- Use with door mullion (External clasp)

Product name	Inner Packing Specification	Outer Packing Specification	Model Number	SAP code
Sealing strip for clasp	500 m/roll	4 roll/case	OPK-A403	653926

### Technical overview

- Material: PVC
- Finish Treatment: Black

### Usage Instruction

- Can be used for 8mm thick single glass

Product name	Inner Packing Specification	Outer Packing Specification	Model Number	SAP code
8mm Glass rubber strip	3.5m/piece	100 strips/tie	OPK-A408	653889

### Technical overview

- Material: PVC
- Finish Treatment: Black

### Usage Instruction

- can be used for 4mm+4mm thick laminated glass

Product name	Inner Packing Specification	Outer Packing Specification	Model Number	SAP code
9mm Glass rubber strip	3.5m/piece	100 strips/tie	OPK-A409	653822

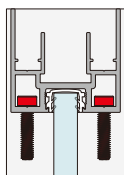

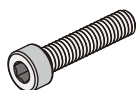

### Technical overview

- Material: PVC
- Finish Treatment: Black

### Usage Instruction

- Can be used for 10mm thick single glass

Product name	Inner Packing Specification	Outer Packing Specification	Model Number	SAP code
10mm Glass rubber strip	3.5m/piece	100 strips/tie	OPK-A410	653890

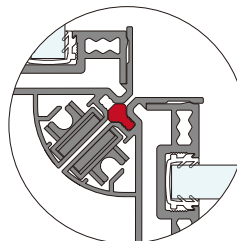

### Technical overview

- Material: carbon steel
- Surface Treatment: nickel plating

### Usage Instruction

- For the connection of the door system
- Eight piece for a door

Product name	Inner Packing Specification	Outer Packing Specification	Model Number	SAP code
internal Hexagonal self-tapping machine wire	500 piece/bag	24 bag/case	OPK-A503	141325

### Technical overview

- Material: rubber
- Surface Treatment: Black

### Usage Instruction

- For shock-proof and dust-proof synchronized decorative door cover

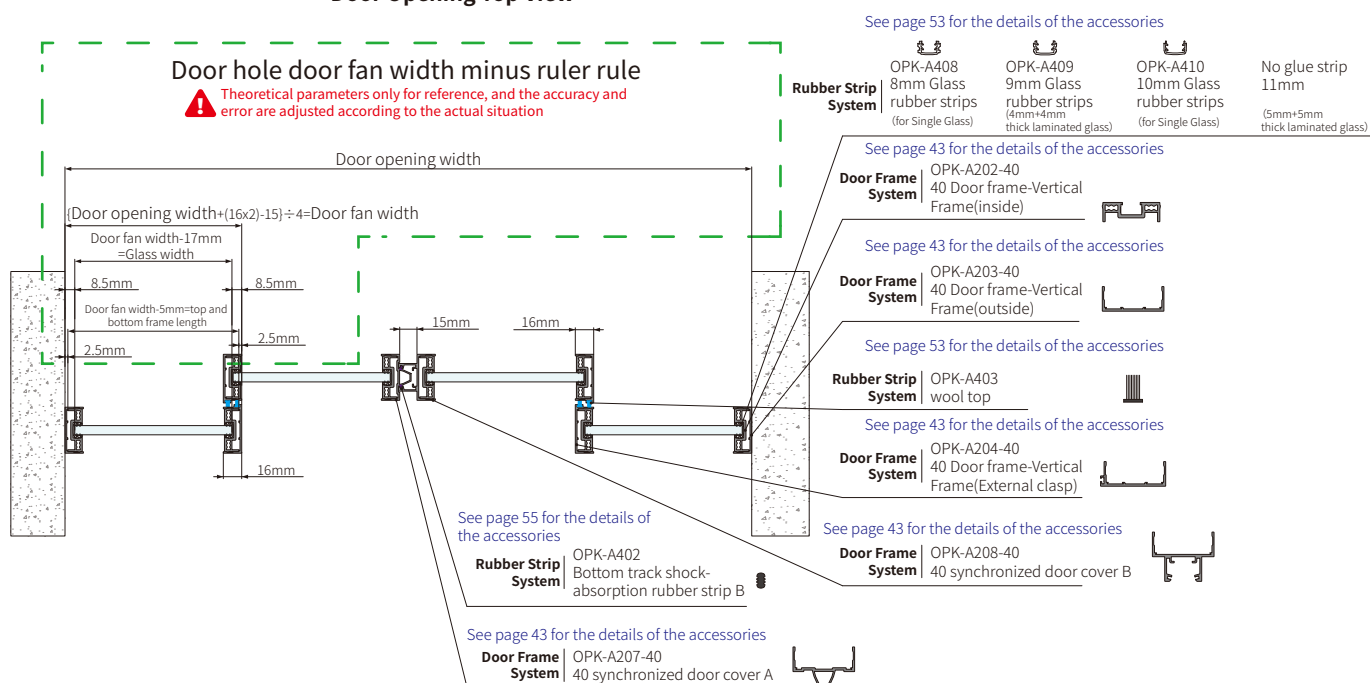

Product name	Inner Packing Specification	Outer Packing Specification	Model Number	SAP code
Right angle synchronized sealing rubber strip	400m/roll	2roll/case	OPK-A405	653763
