

12 cube meter wireless remote controlled clamshell grab bucket

Single rope remote-controlled clamshell grab is a single rope type grab by using radio control technology to handle the loading/unloading of bulk material, generally operated in combination with single hook lifting equipment but solving the problems of low efficiency and man-power intensive compared with traditional single rope operated grabs. Especially suitable for deck cranes operation with high reliability is easy to operate and can be opened in any position during grab opening for releasing of materials.

Technical specification

volume	6~12m ³
SWL	25t
density	0.8~2.5t/m ³
dome	35°
Dia of closing rope	36mm
length of closing rope	12m
stroke of closing rope	4.21m
Dia of pulley	650mm
dead weight	9000kg

General drawing

specification	
1. Model	S-12.4"
2. SWL	25T
3. Capacity	5.4-6.5 M³
4. Size	30"
5. Dia of Cloning Box	1900
6. Length of Cloning Box	12 m
7. Stroke of Cloning Box	1000 m
8. Dia of Pallet	1000 mm
9. Steel Weight	1000 kg
