

PRODUCT: Desktop Card Counter

MODEL: JC 3200C

One key for Embossed/Un-Embossed Card switch
100% accuracy for 0.28mm card available
Max. 99,999pcs cards for SUM
Voice report makes easier and more convenient

No-oil air compressor
Essential part for blowing
Water drain valve and air bleed valve

OVERVIEW

JC 3200C Desktop Card Counter has been developed for fast and reliable counting of all common plastic and paperboard cards. With unique and perfect design, JC3200C offer various functions such as auto scanning, double checking circuits, big LCD display, etc. By the use of no-oil air compressor, our machine can count even 0.28mm thickness cards.

They are good assistants for end users in card manufacturer and card-issuing or personalization field likes bank, public transportation, ID card project and so on.

TECHNICAL PARAMETERS

■ CARD & FEEDER

Card Hopper: 500 card capacity (0.76mm)

Card Format: Standard ISO card format (86mm x 54mm x 0.76mm)

Card Material: All common Plastic Cards (ABS, PVC, PS, PC PET, etc.)
incl. white cards and paper board cards (depending on
kind of material and die-cutting burr)

■ COUNTING & MODE

Counting Speed: 500pcs/4s

Counting Usage: Photo electric Sensor & Blowing

Counting Switch: Embossed and Un-Embossed card

Counting Mode: Quantity and Sum (99,999pcs cards)

■ HARDWARE

Display: By LCD

Power consumption: ≤25W

Net weight: 18kg (40kg with compressor air)

Dimension: 660mm(L) x 220mm(W) x 280mm(H)

Power supply: AC Input: 200 ~ 240V 50 ~ 60Hz 1A

Working environment: Temperature: 10°C ~ 40°C
Relative Humidity: 20% ~ 90%

■ FEATURES

Quick and accurate counting results

Cost-effective & Durable Performance

Easy to put cards into the card magazine

OEM and Customized Services are welcome

One year guarantee ,whole-life maintenance

SPECIFICATIONS

MODEL	JC 3200C
Speed	500 pcs cards / 4 seconds
Old/New Cards	Compliant
Thickness	0.28 ~ 1.5 mm with Compressor Air
Count Mode	Single Count / Accumulated Count
Maximum	99,999 pieces
Display	Large LCD display
Power Supply	AC 200V ~ 240V, 50 ~ 60 Hz 1A
Power Consumption	≤25 W
Working Environment	Temperature: 10 ~ 40°C, Relative Humidity: 20 ~ 90%
Net Weight	40Kgs with a Compressor Air

Attention

Concerning the ray reflection, the whole white color and whole yellow color is not very suitable for the counting machines.
