

PRODUCT: Desktop Card Counter

MODEL: EMP1200P

OVERVIEW

EMP1200P Automatic Card Counter is designed with mechanical driving mode and Digital Analysis Circuit.

It is easy to use and count the cards quickly with high accuracy, even for the dirty, old, damaged cards.

At present, EMP1200P has been widely used in China Speedway IC card charging project, and metro system for 10 years.

USERS

Card manufacturers, Personalization or Issue Bureau like Banks, Operators.

FEATURES

- Compact design
- Conveyor: Rubber Belt Transfer Mechanism
- Simplified operation panel, easy to operate

SPECIFICATIONS

Speed	▪ 20,000 cards/hour
Card Thickness	▪ 0.45mm ~ 1.5mm
Input/Output Capacity	▪ 80 ~ 100 cards
Screen Display	▪ LED
Maximum Accumulation	▪ Accumulation Mode: 9999 cards ▪ Present Mode: 999 cards
Working Temperature	▪ 0 ~ 40°C
Working Humidity	▪ 30% ~ 80%
Power Supply	▪ 220V ± 20%/50Hz (American version 110V/60Hz)
Dimensions	▪ 465(L) × 240(W) × 170(H)mm
Net Weight	▪ 11 Kgs
