- Soft light with color temperature of 4,500K, eye-friendly
- Casters with brakes

Technical Parameter	WYLEDL200
Intensity@ 1m (Lux)	20,000~80,000
Continues intensity adjusted	Yes
Color temperature(K)	4,400K±500 (neutral white light)
Color rendering index	Ra≥90%, R9≥90%
Light field size(mm)	100~200
Illumination depth L1+L2 60%(mm)	≥ 800
Qty of LED	7
Lifetime of LED Light source (hour)	≥50,000
LED brand	Germany Osram
Diameter of light head (mm)	200
Input power (VA)	60
Total irradiance(Ee W/m ²)	Max 300
Lamp cap material	Die cast aluminum
Optional	Lithium battery
Supply voltage	110-230Vac/ 50-60Hz
Quality standard	ISO13485, EU CE, Free Sales Certificate
