

CASE STUDY

MPMC 30MW Power Station in Malaysia

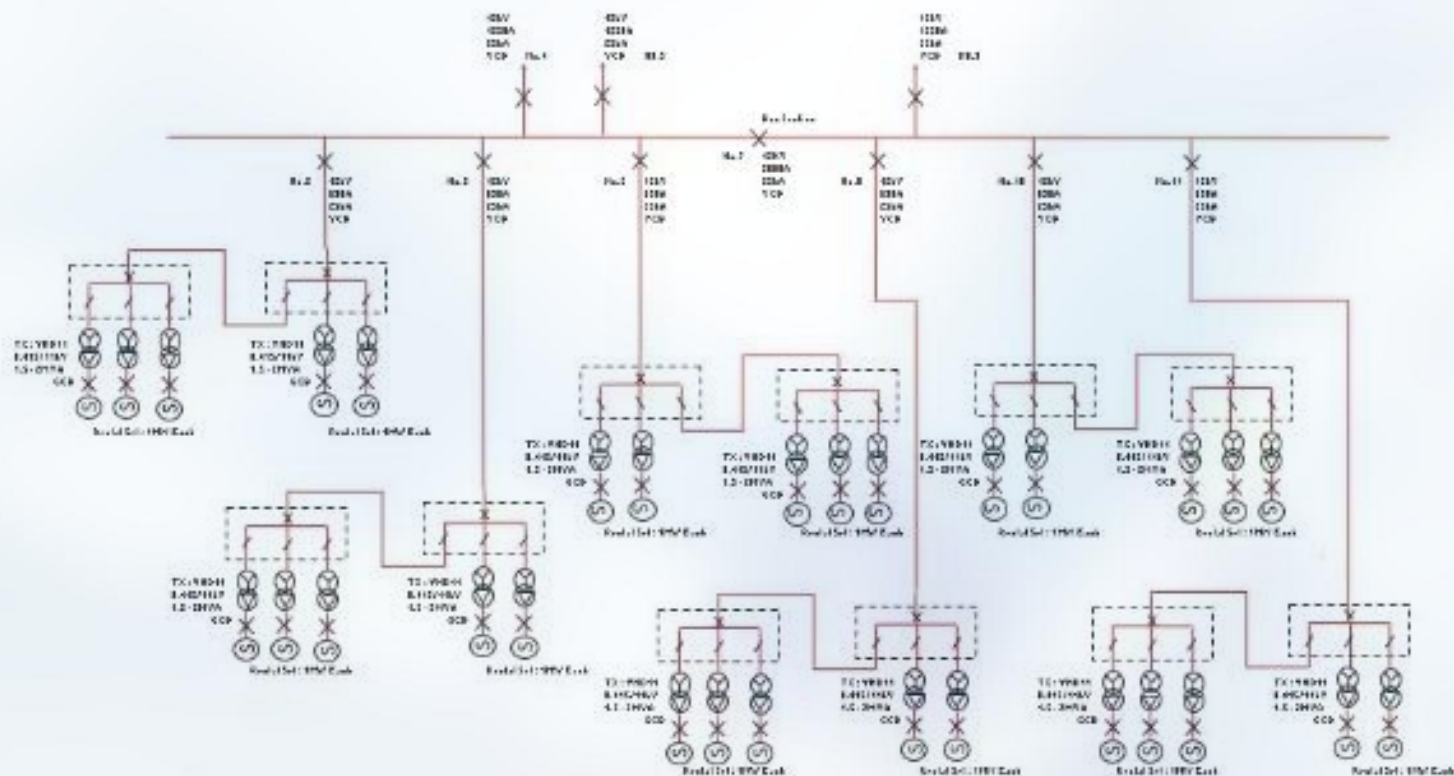

More Power More Confidence

What can MPMC provide?

30MW power station design drawing

**Accompany customers
to Malaysia
to conduct on-site inspections**

30MW power station project delivered to customers

On-site equipment

High voltage cabinet factory testing

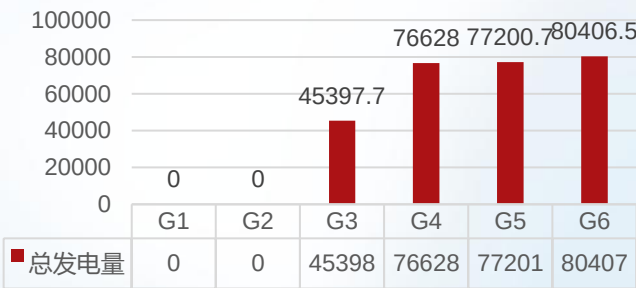

30MW Power Plant Cloud Operation and Maintenance Application

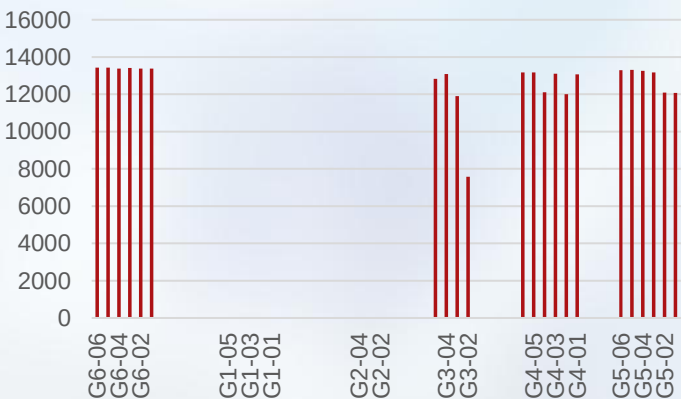

From March 1st to May 13th, the total power generation of the project was 10139755.70kWh. On May 13th, the total power generation of the unit group was 279632.9kW.h
